

TEMP INSTALL INSTRUCTIONS.

Full version coming approximately by August 15, 2010.

//

ABS Format For Absynth Instructions:

Please follow the instructions found here for both Absynth 4.0 and 5.0:

http://www.galbanum.com/products/architecture-ni/pdf/Archi_Waveforms2_InstA4.pdf

//

ALC Format For Alchemy Instructions:

IMPORTANT NOTE: DO NOT CREATE MORE THAN A TOTAL OF 64 FOLDERS AT A TIME IN EITHER THE OSC OR THE LFO FOLDER IN ALCHEMY 1.12 and lower. This will crash Alchemy due to a current bug. At this time you must switch out the folders manually to explore more than 64 folders. This bug will be fixed in the 1.2 version of Alchemy and then this issue will be resolved.

32-bit Windows: XP, Vista, Win 7

Copy the subfolders within “Architecture Waveforms 2010 ALC OSC” folder to:

C:\Program Files\VSTPlugins\Alchemy\Alchemy\Libraries\Waveosc

Copy the subfolders within “Architecture Waveforms 2010 ALC LFO” folder to:

C:\Program Files\VSTPlugins\Alchemy\Alchemy\Libraries\Wavelfo

64-bit Windows: XP, Vista, Win 7

Copy the subfolders within “Architecture Waveforms 2010 ALC OSC” folder to:

C:\Program Files (x86)\VSTPlugins\Alchemy\Alchemy\Libraries\Waveosc

Copy the subfolders within “Architecture Waveforms 2010 ALC LFO” folder to:

C:\Program Files (x86)\VSTPlugins\Alchemy\Alchemy\Libraries\Wavelfo

OSX:

Copy the subfolders within “Architecture Waveforms 2010 ALC OSC” folder to:

:Library: Application Support: Camel Audio: Alchemy\Libraries\Waveosc

Copy the subfolders within "Architecture Waveforms 2010 ALC LFO" folder to:

:Library: Application Support: Camel Audio: Alchemy\Libraries\Wavelfo

//
